Philomathean Catalogue 1830 (Died: 1868)

CLASS OF 1831

ALEXANDER LINN

Son of Hon. John Linn, was born at Harmony Vale, N. J., July 17, 1811.

He married Julia, a daughter of the late Horace Vibert, in 1845. H

He was a graduate of Union College, 1831; began the study of medicine under Dr. R. Byington at Johnsonburg, N. J.; attended lectures at Jefferson Medical College, 1833-36; receiving his diploma from that institution in March, 1836. In 1837 he located at Deckertown, where his skill and earnest devotion to his calling soon gave him command of a large practice, which he retained until prostrated by his last illness. He formed a partnership with W. H. Linn, May, 1849, which was dissolved in April, 1856. He was a great student, and possessed a remarkable memory. Became a member of the Sussex County District Medical Society in 1840, and his associates looked up to him "as the most brilliant star in their circle." He was a member of the State Medical Society, and was twice elected one of its vice-presidents. After months of great suffering he died May 12, 1868, leaving a widow and four sons, together with a large circle of warm friends and patrons, to mourn the loss of one who, had he cared less for theirs and more for his own health, might yet have been spared; but such was not his conviction of duty.
